

# COMPOSITE TYPE CNC VERTICAL GRINDER

**PALMARY**  
PALMARY MACHINERY CO., LTD.

**VIG-50**

## FEATURES

- New design honeycomb type machine cast iron structure assures the best rigidity and stability.
- Equipped with 6 no. ATC (Auto Tool Change) system.
- The forced spindle lubrication system is offered.
- Reduced the machine layout for saving more space.
- For end face grinding application, the wheel spindle could swivel to 22.5 degrees for easily grinding.
- The coolant flow is isolation design from the machine bed and could reduce the heat deformation and dirt to the bed.
